About to lose your Home?

If you are afraid you are going to become homeless in the near future. **DON'T DELAY!** Contact one of the Advice Centres to talk about your problems and prevent the worse happening.

Finding a Place to Stay

If you have just become homeless, and you have no money and no friends or family who can help you with a bed for the night, it's going to be difficult to sort out your problems today. But there are many organisations who will try their best to help and your best chance is to contact them, tell them all about your situation, and follow their advice. There are lots of people who have been helped and are now settled and supported in a place of their own.
